

La Jolla Vein Care
Radiesse Hand Filler
After Treatment Instructions

- Immediately after the procedure, a compression wrap will be applied to your hands. Keep this wrap on for 3 days.
- Apply ice or a cool compress to the top of the hands during the first 24 hours
- Use sunblock on the hands for two weeks following treatment

After treatment it is normal to experience swelling and numbness. Swelling will usually resolve within 7-10 days but may persist for several weeks. Numbness should resolve within 4 to 6 weeks

If you experience pain after treatment, you may take Tylenol to alleviate any discomfort you may have.

Return to the office 1- 2 weeks after treatment for follow up.

You follow-up appointment is scheduled for: _____

If you have any questions or concerns after treatment, please call our office at **858) 550-0330**.
